

The influence of the waves of evolution

(adapted from Carl Calleman, The Nine Waves of Creation)

Challenges Associated with prior Evolutionary Waves

As discussed in session 3 of our Magnificent Souls program, in the ninth wave cycle we 'descend' into the darkness or 'night' aspect of the cycle every 18 days. So, we have 18 days of moving forward when we are in the daytime part of the cycle, followed by 18 days when we enter into the relative stillness of the night.

During these downturns is when we have an opportunity for healing as the shadow aspects of the holograms of the prior evolutionary waves, especially 6, 7 and 8, may present for healing within the 9th wave frequencies. We have many centuries of programs associated with these waves that are arising within the collective field, as well as in your personal consciousness, so it helps to be aware of what types of issues may arise, and even be intensified during this time.

With the sixth and seventh waves in particular, there are tremendous resonances from ancestral and past life experiences. This means that your inherited holodynes from your physical lineage, will be activated, and many of these old patterns become active as challenges in our lives, especially during the ninth wave night.

Here is a brief summary of the challenges in the 6th, 7th and 8th waves so we can be aware of what may be reflected during this time :

Sixth Wave

Initiated : 3115 BC , day + night of 394 years each (total wavelength of 788 years)

General Characteristics : Patriarchal, left brained, technological, scientific, rational, desire for power and control, individualism, formal religions, separation from nature, other humans and the divine, Duality, conflict (us vs them), mental (mind), monarchy & rulership, writing as form of communication, cities, measures, calendars, 'civilisation', rationalisation of mystical experiences, mythology, pyramids, good vs evil, advanced tools, the 'Fall' from Eden

Benefits : Expansion of the rational mind, philosophy, mathematics & geometry, great builders eg cities, questioning, exploration, critical thinking, innovation, larger community structures.

Challenges : Surrender of control to the unfolding of Life, conscious power vs powerlessness, linearity, either/or thinking, fragmentation of Self, cross-cultural interactions and conflicts, social inequalities, monarchy, slavery, ruler vs ruled, organised warfare. Knowledge as power. Racism, sexism (all the 'isms')

Seventh Wave

Initiated : 1755 , days and nights of 19.7 years each (full cycle of 39.4 years)

General Characteristics : 'Endarkened' unity consciousness, Structure, boundaries, Scientific vs spiritual, technical progress to support societal growth, the Renaissance, Industrialisation, trends to atheism and equality (social, cultural), relationship to the Divine based on perception of darkness, material world focus, global awareness, 'Common good'.

Benefits : Abolition of slavery & monarchy, social revolutions / uprisings, introduction of republics, enrichment and 'ease' through technological advancement, trends towards equality, globalisation, removal of boundaries, expanded cultural relationships, education, Self-reliance, advancement of societies, greater equality for women, children, the oppressed, global trade, open markets, freedom & liberation

Challenges : Strict definitions and limitations, imposed boundaries, thinking outside of the box, blocks to the human experience of the One Source, focus in material world, reduction in intuition, actions without consequences, Global corporations the new 'rulers', craving for novelty.

Eighth Wave

Initiated : 1999, Days and nights of 360 days each (full cycle of 720 days)

General Characteristics : right-brained, re-awakening the feminine, spiritual, creative, 'New Age', neo-shamanism, spirituality sometimes without recognition of the Divine, More, eclectic spirituality, faster connections, 'Smart' technologies, automation, intuitive, Text-images (conceptual communication), videos,

Benefits : Fast turnarounds, digital revolution, internet and inter-connectedness, reduction of 'boundaries', expanded social networks, rise of women, new spirituality, Light vs darkness, Self Awareness,

Challenges : Physical, health, emotional, spiritual challenges to activate the wiring of 8th wave frequencies, expansion of feminine consciousness, economic inequality (decrease in value of human labour), burnout (high frequency of change), concentration of wealth in wealthy investors, economic and political instability, shifting of global economic power to the 'East'.

Ninth Wave

Initiated : 2011

Equality, Healing (personal, collective and planetary), unification, harmony, personal relationship with the Divine, no limits, integration, quantum, Revealing and correcting injustice and oppression, activating new potentialities, conscious choice, declining power of the west, reduction in competition in line with unity thinking, creation and implementation of beneficial technologies, gender equality, Era of Fulfilment, mind – heart transition, transcendence of ego self, embodiment of Divine Self, co-operation and service, Self-Transforming approach to Life, fulfilling Divine Plan, harmonise distribution of income, manifesting personal destiny as an aspect of 'Divine Plan'.
