

Masters of Destiny : Session 2

Supporting the Re-wiring of Your Brain

There are Twelve sets of qualities or characteristics that are inherent polarities within our psyche. Each is a complementary energetic manifestation of the same force. When we learn to manage them, this ultimately leads us to Divine Unity (9th wave)

There is an innate tension that exists between each of the opposites, that when mastered, create a cross-over in the brain and a strengthening of the core column within your Diamond, enabling you to hold greater balance and emanate more light. It also provides for greater neuronal plasticity and additional neural pathways within your brain.

Each manifestation (attribute), or energy has within it an additional polarisation. In other words, there is a right time – right place to utilise each of the characteristics and when this is recognised and appropriately utilised, it leads to increased frequency, connection and unity.

Inappropriately used, these attributes can lead to lowered frequency, reduced connection to Source and reduced neuroplasticity.

There are no 'bad' characteristics, only misguided and incorrectly used forces

Mastering the Attributes means to use them at the right time- right place always, as this supports our elevation into unity consciousness. This was a discipline of the ancient mystery school initiates.

Contemplating the attributes in your own life develops the brain, sharpening your ability to respond and act appropriately when any one of the attributes is requires.
