## Questions

1) Do you believe in multiverses, because I am led to believe there are & in which case does the cosmic tree give rise to these or does each universe have its tree?

2) is God/Source the tree or the creator of the tree?

3) Do the waves correlate with the theory of root races?

4) Where does the consciousnesses of the Angels, Gods/Goddess's, ascended masters, unicorns, elementals, dragons, crystals/skulls, other star beings, fit it in to the picture? If there is a hierarchy where do we fit in? Do you think they are higher vibrational versions of ourselves?

5) How does us as multidimensional beings living numerous parallel lives at the same time fit into this?

I believe we are fractalised/individualised from source sent of to explore ourselves & individuality, light & dark & free will & ultimately to reunite as one with source again.

6) How do the 9 waves affect the other planets & stars, are they all affected at the same time as us & how are we affected by linear time at all when there is no time & are there more advanced, enlightened beings than us elsewhere?

7) who are the ET's that interfered with us in the Lemurian/Atlantean period & what was the purpose of the creation of a slave race? (I've read about the quest Galactically for minerals & precious metals like gold).

## THE SIXTH WAVE

- Polarised: Download of holograms for left brain development / limited right brain (divine connection)
- Introduced opposites : Light/dark, good/bad, male/female, inner world/outer world
- Separation and conflict
- Control
- Influenced relationship with outer world

## Sixth Wave

- Initiated between 5-6000 years ago, wavelength of 688 years (394 day/394 night)
- 'Prewaves' approx. 10 000, 25 000 and 52 000 yrs ago
- From 6<sup>th</sup> wave onwards, holographic delivery = mental paradigms
- Holographic delivery of mental patterns
- Left brain development, masculine energy
- Systems of writing and recording (transition from verbal story-telling)
- Birth of the concept and importance of the individual, 'I' and ego self
- Rise of masculine power and suppression of the feminine
- Source (Creator) as Deity, Birth of Religions and distortions of original practices
- Mechanical, linear, reasoning, hierarchical
- Creation of Civilisations with Rulers (mainly patriarchal). Sumer, Egypt, Greek....
- Similarities in form, pyramids all over the world

## Sixth Wave

- Development of sciences of geometry & mathematics – explosion of science in 1600's
- New relationship to external reality and creations of 'form'
- Bridging the formless and the world of form
- Mayan calendrical system
- Good vs Evil (Biblical Tree of knowledge vs Tree of Life)
- Social inequality, Monarchy, Slavery, Victim and Aggressor
- Concepts of guilt, punishment, sin, evil
- 6<sup>th</sup> wave 'days' = rise of new civilisations, while nights = decline (eg Spanish inquisition)
- We are currently in a 6<sup>th</sup> wave night which began around 2008 (!)

How we experience our world depends on which wave we are in resonance with

Karma is a 6<sup>th</sup> wave concept introduced via the Asian religions

It is nothing less than the enfoldment of beliefs and consequent behaviours that became encoded within the DNA & that continue to play out. This may be personal, ancestral, planetary

Now is our opportunity to dissolve that by the act of 'letting go' of any and all limiting beliefs in order to restore harmony

What happens in our lives was always meant to happen.....how we respond to that becomes our choice and our destiny, and our ability to respond in new, creative and novel ways is a function of the 9<sup>th</sup> wave

Transition 'zones' between waves

- Turbulent
- Chaotic
- Key is to harmonise with both – not to resist
- Consciousness of the waves supports the recognition of the transition zones
- Fuels creativity
- Current scenario provides us with multiple transitions or chaotic nodes:
  - 6-7
  - 7-8
  - 8-9
- Huge creative opportunities

## Global Brain Correspondence

Almost all of the values we are currently programmed with arise from the entrenched and enduring concept of western 'civilisation'

- Heirarchies
- Class & social structures
- Economics
- Concepts of success
- Application of power
- Religious beliefs

Entrenchment of the 'Human script'  
(which runs left-right (counter-clockwise))

Divine Script runs right – left (clockwise)

Letting GO !

Every kingdom built eventually falls.

Every form dies.

I come to destroy the walls of your fortresses, to  
desecrate your bodies.

For when all is gone, you are liberated. -Kali Mata

## Letting GO

The Sixth Wave is the origin of most of our beliefs and judgments around :

- Security
- Self worth & value (having/being good enough for example)
- Separation and death
- Abandonement
- Ability to create
- Power & powerlessness
- Authority and control

# MASTERS OF DESTINY 3

## Letting GO

- Creates space for the advanced wave holograms to be downloaded (not 'new', but new to us)
- Requires us to become comfortable with death.....the death of ideas/beliefs/behaviours/ all of our masks and what we thought we knew
- Releasing attachments to absolutely everything in our lives-posessions, people, outcomes in order to become our True Self, our Ascended Self, the waves of creation itself seeking to experience itself through us. We are simply conduits for this ultimate force
- About seeing the reflections in the mirrors of all of our relationships, understanding the judgments we make about ourselves, and the beliefs that support them

To Let Go is to surrender, soften, detach, connect with your True/Divine Self and allow the heart field to expand

# MASTERS OF DESTINY 3

## The Redwoods

- All trees are Receivers, transmitters and disseminators of energy from sun, earth, water & mineral kingdoms
- Giant Redwoods : ancient consciousness. Individual and collective benevolent emanations
- 'Conscious' Record keepers of the plant kingdom. Equivalent of crystals
- The apex of the plant kingdom
- Held as sacred by Atlanteans & Lemurians
- Redwood forests – 'stargate' portals
- Expansive field of awareness. Lemurians had ability to merge their consciousness with the redwoods for sacred ceremonies. Redwoods therefore retain aspects of this benevolent Lemurian consciousness (Oak= Atlantean, Yew = Druids)
- Redwoods emit a balanced modulation for rejuvenation and well-being. Therapeutic Theta field frequencies balance and ground the human biofield (aura)
- Specialised conduits of Divine Energy. Generates spiral, vortical, coherent energy, similar to pyramids
- Restructures water
- Provides for enhanced connectivity with Divine Realms; visionary experience, renewed vitality and encourages forward growth
