Cosmic Guidance

Those who flow as life flows, know they need no other force....Lao Tzu

MASTERS OF DESTINY 2022 – 2

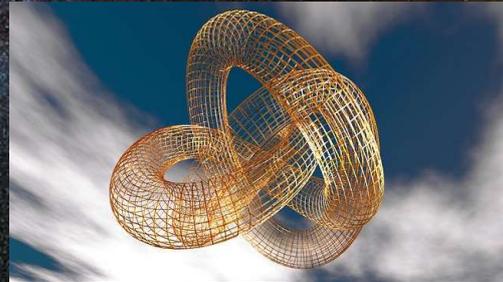

Complexity vs Simplicity

“Abandon the urge to simplify everything, to look for formulas and easy answers, and begin to think multidimensionally, to glory in the mystery and paradoxes of life, not to be dismayed by the multitude of causes and consequences that are inherent in each experience -- to appreciate the fact that life is complex.”

— M. Scott Peck

“Simplicities are enormously complex. Consider the sentence "I love you".”

— Richard O. Moore, [Writing the Silences](#)

The Gordian Knot

Gordian knot refers to complex and unsolvable problems, according to ancient Greek legend. The Gordian knot was an actual knot known for being impossible to untie.

Overview of Session 2

- Tapping in to the Cosmic Guidance system
- How you are impacted by the various cosmic operating systems
- Is your mind your own? The operational holograms of universal mind and the realities they (and we) create
- A perspective on the Akasha
- The nature of fractals and timelines
- Connecting with waves 1 through 5 and how they live within you
- The cosmic cataclysms and origins of trauma
- The birth of the human ego
- Surviving (and thriving) through chaotic nodes and transitions (like now!)
- Upgrading your brain to decode and reprogram outdated holograms

MASTERS OF DESTINY 2022 – 2

WE (Humanity) ARE THE PROGRAMMERS (SOFTWARE)

- The Nine Waves emanate from 'Source' / The Cosmic Tree / Tree of Life
- Each Wave carries holographic information that becomes more complex with increase in frequency
- Our interaction (or resonance) with the waves provide us with context and meaning .
- This is done through the neural pathways that have been laid down in our brains through the continuum of life

MASTERS OF DESTINY 2022 – 2

The Nine waves run concurrently, even though they appear to have arisen sequentially.

We have access to all of them, and the information contained in them through the interconnected field, web of life.

The 'Akasha' is simply this natural, living field of information that we are all embedded within

We are purifying our individual embodiments so that the memory of Love, Peace and who we are becomes the guide for our destiny (and others) by letting go of all patterns that resonate with earlier 'waves'

"We are tasked to build upon the foundation of the ancestors, to heal the fragmentations within our psyche and restore the integrity of connection to Source"

Sethikus

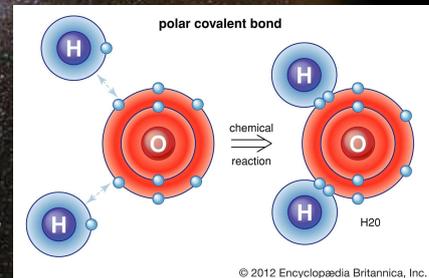

Your Destiny is intricately interwoven with the Destiny of others, as well as those who have gone before

“We are Covalently bonded to our purpose ”

Dr David Martin

“Covalence = a sharing of energies at the atomic level without Compromising the individual expression or integrity of either. However, the bonding creates a new expression of reality that would not be possible without the bonding.

Covalent Bond

Covalence is a philosophical concept that simply requires us to Live Fully together with others, without giving anything up. It is a 'loss-less' situation where we don't give up anything, but gain everything”

It is the way of nature.

Fractals and Timelines

What is a Fractal?

Fractals are an infinite set of repeating self-similar patterns, existent on all scales of measurement and magnification. In other words, fractals are figures that are made up of the same pattern over and over again, reaching for infinity, essentially revealing “empty form”. All of nature, and the entire universe are rendered fractal expressions. It is not a fundamental principle—it is *the* principle. Fractals describe [emptiness](#) brilliantly, because fractals in fact ARE empty.

MASTERS OF DESTINY 2022 – 2

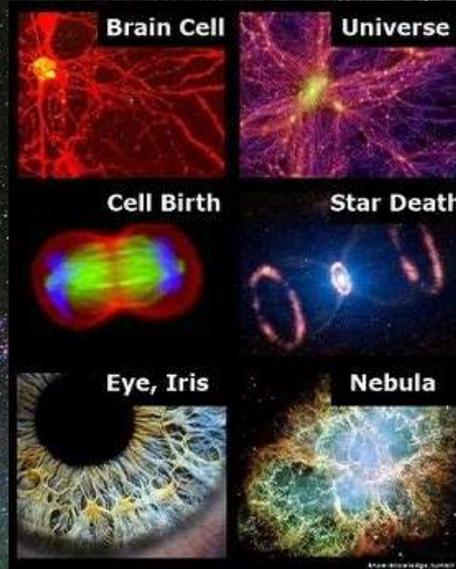

Fractals and Timelines

When looking at the Mandelbrot set from a “high” vantage point one can see the circular shape of a darkened beetle-like figure. Upon zooming in to attempt to observe the details, one will find an interesting phenomenon: the “solidity” of the detail seems to give way to more generations of the same design. When one delves further still, there exists more of the same thing. It’s as if there is no absolute structure comprising this figure, and one would be right in coming to such a conclusion, for this “psychedelic mind trip” pattern goes on infinitely. In other words, essentially, despite the fact that there clearly was a form present when we started, deeper investigation uncovers a “bottomless pit” phenomenon, where the form gives way to further self-similar constituents. It truly has no things making it up at all—it is empty. Taking this emptiness a bit further, it is clear to anyone who takes the time to look, that nature operates with the exact same formula as the Mandelbrot Set. All things that exist, from plants to humans to planets, all have no defining structure at their core.

The study of fractals lends to helping one understand centuries old wisdom, like that of Zen masters who propounded that emptiness is in fact form; form is emptiness. This is a principle which modern science is discovering more and more, and pervades all facets of reality, from “physical” forms, to intangible components such as thoughts, even the POTENTIAL awareness of an organism, resultant of the amount of processing power it has (we high-functioning humans are a perfect example when compared to, say, a fly).

Fractals and Timelines

MASTERS OF DESTINY 2022 – 2

Fractals and Timelines

- Fractals are holographic In nature – a change at one level impacts the entire structure
- The Nine waves are an aspect of this fractal patterning
- Each wave represents a 'timeline' or series of potentials based on information within the wave
- Resonance with the highest frequency 9th wave, changes the fundamental pattern (expression) of all of the waves – we could therefore equate this to 'collapsing the old timelines)

Viruses, exosomes and Evolution

“Any member of a unique class of infectious agents, which were originally distinguished by their smallness (hence, they were described as “filtrable” because of their ability to pass through fine ceramic filters that blocked all cells, including bacteria) and their inability to replicate outside of and without assistance of a living host cell.

A virus consists of genetic material, which may be either DNA or RNA, and is surrounded by a protein coat and, in some viruses, by a membranous envelope”
Free dictionary

Our indoctrinated belief system now equates the term ‘Virus’ with ‘Pathogen’

What is a Virus?

*“A **virus** is a submicroscopic infectious agent that replicates only inside the living cells of an organism.^[2] Viruses infect all types of life forms, from animals and plants to microorganisms, including bacteria”*
Wikipedia

“A virus is a chain of nucleic acids (DNA or RNA) which lives in a host cell, uses parts of the cellular machinery to reproduce, and releases the replicated nucleic acid chains to infect more cells. A virus is often housed in a protein coat or protein envelope, a protective covering which allows the virus to survive between hosts”

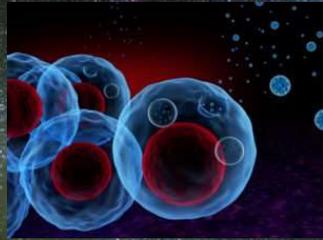

The biology dictionary

MASTERS OF DESTINY 2022 – 2

Viruses, exosomes and Evolution

“Exosomes are excretory nano-vesicles that are formed by the cell’s endocytic system and shed from the surface of almost all types of cells. These tiny extracellular vesicles, once thought to be “garbage bags for cells,” carry a wide variety of molecules of cellular origin, including proteins, lipids, and RNAs, that are selectively incorporated during the formation of exosomes. Exosomes are now known to play a central role in several important biological processes such as cellular communication, intercellular transfer of bioactive molecules, and immune modulation. Recent advances in the field have shown that a number of animal viruses can exploit the exosomal pathway by incorporating specific cellular or viral factors within exosomes, in order to modulate the cellular microenvironment and influence downstream processes such as host immunity and virus spread”

Viruses, exosomes and Evolution

Viruses are Dominant Driver of Human Evolution, Researchers Say

In a new study published in the journal eLife, scientists apply big-data analysis to reveal the full extent of viruses' impact on the evolution of humans and other mammals. Their findings suggest 30% of all protein adaptations since humans' divergence with chimpanzees have been driven by viruses.

When an environmental change occurs, species are able to adapt in response due to mutations in their DNA. Although these mutations occur randomly, by chance some of them make the organism better suited to their new environment. These are known as adaptive mutations.

In the past decade, scientists have discovered a large number of adaptive mutations in a wide variety of locations in the genome of humans and other mammals.

The fact that adaptive mutations are so pervasive is puzzling. What kind of environmental pressure could possibly drive so much adaptation in so many parts of the genome?

Viruses are ideal suspects since they are always present, ever-changing and interact with hundreds to thousands of proteins.

"When you have a pandemic or an epidemic at some point in evolution, the population that is targeted by the virus either adapts, or goes extinct," said lead author Dr. David Enard, of Stanford University.

"We knew that, but what really surprised us is the strength and clarity of the pattern we found."

Waves 1-5

2nd Wave: Plants & Animals. Receivers and transmitters of creational 'information'. Split into genders. Instinctual & the source of our instincts. First embodiments of ethereal energy. Continuing to evolve as we are with the new waves. Eg Sacred White Animals, animal relationships, plant communications.

3rd Wave : Primates. Four-legged to 2-legged. Larger brains with increased polarisation. Precursor 'behaviours' for human development

4th Wave: Initial 'Human' beings. Expanding brains and increase in size, hunter-gatherers, driven more by instinct, no 'concepts' of Creational origins. Learned to use tools

MASTERS OF DESTINY 2022 – 2

5th Wave : Where everything begins to change rapidly!

- Language ability, mental development, emergence of consciousness
- Physically sleeker anatomy

Unfiltered, connected with other-worldly realms/concepts of Divine source

Origin of First nations people (Khoisan in Africa approx. 80 000 yrs old)

- *Origin of all creation stories influenced by cultures forming*
- *Origin of burial ceremonies, art, ritual, symbolism*
- *Original Diamond Consciousness (hence our modern fascination with shamanic practices & indigenous peoples...trying to bridge the gap)*

Origin of Trauma and birthing of ego

What puts the ego into the driving seat is trauma and the need to create a measure of Control in the face of incredible danger. Modern man still suffers from PTSD as a result of ancient events, and the left brain/ego has been running the show ever since. Often referred to as 'fracturing' of the human psyche

1. Atlantis– Intervention. ET 6th wavers 'interfered with natural progress & evolution'. Genetic manipulation. Creation of slave race

Lemuria (or Mu= "Place of the Ancestors") : breakaway group from Atlantis escaping. Subsequent wars (earthly and galactic)

MASTERS OF DESTINY 2021 – Session 2

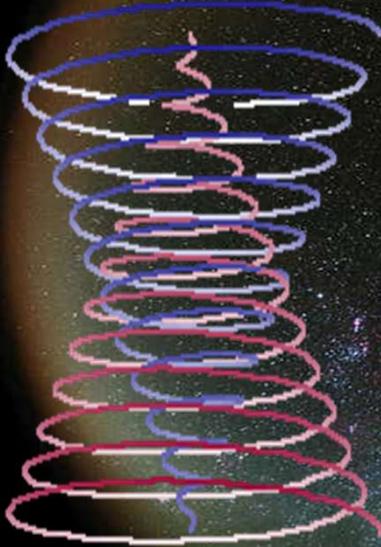

We are currently bridging the 5th wave (primal unity/unfiltered consciousness), with the 9th wave of unification. As we bring the 9th wave potentials online, we do so against the enormous pull of the 'old' energy (like gravity)

Healing the traumas of the 5th (and subsequent) waves, is a critical aspect of our evolutionary journey and ability to attune to and embody the 9th wave.

1. Practice writing right – left in order to build R-L connections within the brain.
2. Consider the concept of 'Covalent Bonding' with all the micro-organisms that effectively make up your body. All of these relationships have a purpose in creating the uniqueness of YOU
2. Contemplate the 12 complementary attributes, where and how you utilise them, what can be strengthened or brought into awareness and where balance can be achieved in your own life.
