## MASTERS OF DESTINY II – 1

**“The chief purpose of the highest evolutionary wave (the Ninth Wave) seems to be to make it possible for us to finally bring everything together in the Era of Fulfillment. The Ninth Wave provides us with a frequency that does not lead us to be separate but helps us see the unity of all things and how everything is connected.”**

### Dawn of a New Awakening!

*Dog/OC is a symbol of Sirius (Dog star) and Antares; one or the other is always visible but never at the same time. All dogs are domesticated wolves, companionship and guidance; connecting a link between the worlds; wolf is the day sign associated with teachers, pathfinders and transformers.*

**Galactic Tone 10: Manifestation.** *What were once intentions or ideas, hopes or fears become physically present with the energy of Ten. What is focused upon with attention and intention becomes real with Ten. Ten is a powerful energy that carries a great responsibility.*

**“The 9th Wave calendar is THE MEMORY KEY, and can be understood to align with the vibrational resonances of the new incoming Cosmic Light FREQUENCY. This LIGHT is transcending the immature imprints of duality and healing the collective ‘Soul’.**

**It is very evident how our world is changing, the flaws of time are surfacing, the destructive imprint of the past is being seen. The 9th Wave calendar is THE MEMORY KEY, IT aligns to the incoming Cosmic LIGHT that is opening the doors to our destiny of a transparent heart centered NEW EARTH, together we are birthing a world filled with LOVE and Peace” .....Sean Caulfield**

## Challenges of the 9<sup>th</sup> Wave

- Unrealistic expectations eg The Event, The Rapture, 'Boom', One-season world of bliss
- Small percentage of population resonating with it (approx. 1%) – but growing!
- Requires internal integration of all prior waves and shadow aspects / archetypes
- Dealing with the discomfort of re-awakening and seeing fully ALL of the polarities (accompanying emotional states of grief, loss, disbelief, letting go of earlier wave ideas and ideals etc)
- Moving from passivity (8<sup>th</sup>) to balance of receptivity – heart based action
- Acceptance and Allowance – which is not the same as Denial or Spiritual bypassing
- Grounding and embodying the 9<sup>th</sup> wave Holograms
- Consciously manifesting without the sense of 'Entitlement'
- Balancing intuitive trust and questioning (right-left brain balance)
- Allowing the feminine energy, heart and body to 'lead'.
- Self-transformation
- Looking for the 'easy way'
- Stepping Out of the Box
- Wholeness vs Healing
- Becoming familiar with Surrender and True Power

## Synchronisation & Lockstep

Five metronomes are set to 176 bpm and placed on a Foam Core board. When empty cans are placed underneath, the board is free to move from side to side and the metronomes are able to influence each other into synchronization. When the cans are removed the metronomes are no longer physically coupled and some of them begin to fall out of step.

- "170 people doing the same thing in synchronisation creates an oscillating frequency that will break the system
- If you break step, you will be a threat to the stability of the people who are in lockstep with their own destructive force!
- Synchronization (not synchronicity) begets militarization
- The oscillating frequency of synchronicity will break the system"

## More than 5 Senses !

At the turn of the last century, Rudolf Steiner had realized we had more than the traditional five senses. He asserted we had twelve senses.

We actually have 12 cranial nerves linked with our processing of information.

# MASTERS OF DESTINY II - 1

## The Lower Senses – “Sensation” Senses – The Physical Senses

The lower senses give us a certain consciousness of our body.  
Focus of development of these senses is 0-7 years of age.

•Sense of Life – This sense allows us to experience our own constitution, whether we feel well or not (edictic – vivid visual imagery)

•Sense of Touch – This sense tells you something about the object you are touching and your sense of boundary (tactile).

•Sense of Movement – Gives us a sense of our joints and muscles when we move. It is development from sitting, crawling, walking (proprioception).

•Sense of Balance – Gives us our relationship to the three dimensions of space; above/below, right/left and front/back (vestibular)(orientation).

# MASTERS OF DESTINY II - 1

## The Feeling Senses – “Perception” Senses

These senses give us an experience of the world around us.  
Focus of development for these senses is during 7-14 years of age.

• Sense of Sight – Through this sense we experience the nuances of light, darkness, and colors.

• Sense of Smell – Through this sense we experience the quality of things (odors, scents, aromas, etc) and our relationship to them. Smelling is related to memory.

• Sense of Taste – Digestion begins in the mouth. Ideally, our sense of taste should teach us what is good for us. Tongue distinguishes different qualities of food.

• Sense of Warmth – This a two-fold sense, a temperature sense of hot and cold. We experience physical temperatures as well as soul/ emotional warmth and coldness.

# MASTERS OF DESTINY II - 1

## The Cognitive Senses – “Concept” Senses

These senses give us access to communicating our thoughts and feelings to others. Also called the social senses.

Focus of development is during 14 – 21 years of age.

•Sense of Hearing – Our ear has three main parts – the outer, middle and inner ear. Our sense of hearing allows us to differentiate sounds.

•Sense of Word (Speech) – Allows us to be aware of the language another human being uses to communicate with us. Allows us to grasp how language is used.

•Sense of Thought – The sense that gives one the capacity to understand, comprehend, and picture what another's thoughts convey.

•Sense of Ego – The sense that gives one the ability to be sensitive to someone's individuality.

# MASTERS OF DESTINY II - 1

“Over the last 17 years, the programming has reduced our senses to Two

Sight and Sound

This is now being reduced to 1 ½ - “don’t trust what you see”

The amplitude and broad spectrum of senses is being shrunk to what we hear – we therefore become subject to processing only that which we are told!”

Dr David Martin

## **Memes and genes**

Spiral Dynamics makes use of the terms from 'mimetics'; the study of the evolution of [culture](#) and ideas. A meme is an idea that spreads itself through information carriers, such as the human brain. It is also described as a contagious information pattern.

Everyone is familiar with genes; the biological code carriers in human DNA. Biologist [Richard Dawkins](#) first introduced the term 'memes' in his book *The Selfish Gene* (1976). Genes underlie physical changes; they multiply themselves and move from cell to cell. Memes are similar, they move from brain to brain. They are thought systems that spread themselves about society. Like viruses, they jump from mind to mind. Like genes, they form the human personality. As such, memes affect organisations and causes common thoughts. They may cause social conflicts, but they also provide solutions. They are the driving force behind new developments.

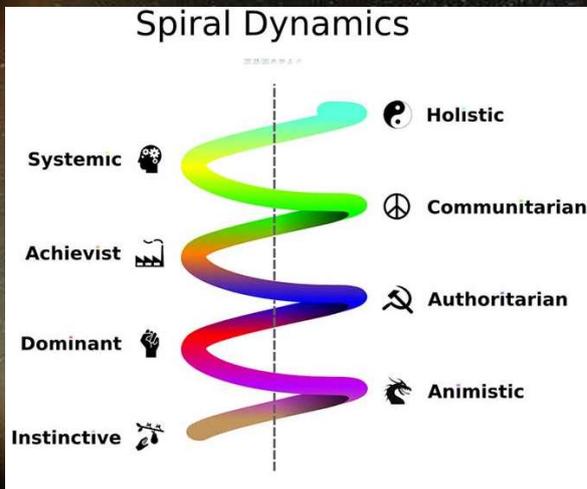

# MASTERS OF DESTINY II - 1

## Values

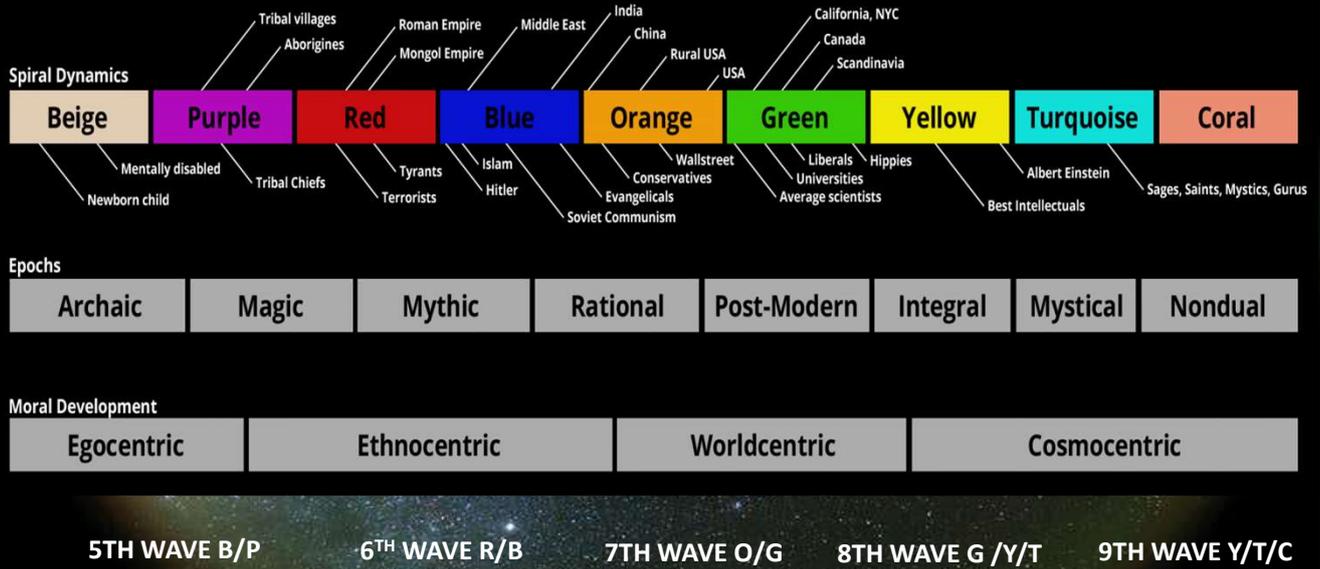

In addition, according to Clare W. Graves, specific memes represent the attractive and repulsive forces behind the development of values. These are called value memes and within Spiral Dynamics they are used to identify value systems.

This determines how people think about certain things and why they believe in something. It is not about what they think. The value memes reveal the deeper value systems, on which people judge and evaluate observations.

## Suggested Contemplation for Week 1

- Consider the regeneration of communities in accordance with nature's principles eg : Shared 'ownership' of assets. Be aware of what emotions arise as you consider this possibility or potential (ie What owns you vs what you own).
- There is a famine / food shortage coming. What can you begin implementing to support community and others?
- What value 'lenses' are you aware of as you consider the above?
- Utilise the Unbind – Neutralise – Initiate process wherever you experience fearful reactions
